JURA – If you love coffee

About Coffema

Coffema International General Trading L.L.C. in the UAE is the exclusive distributor of JURA focusing on the retail (household machines) and commercial (hotel, restaurants and cafes) segment.

Based in Dubai, Coffema International General Trading L.L.C. is a partnership between Coffema International Handel GmbH and Mr. Markus Hacker.

Coffema International strength is the ability to offer the finest package of coffee and equipment, technical service and after sales support with European Standards.

Coffema International is one of the market leaders in the field of installation and service of espresso machines in Germany (www.coffema.de) with over 20,000 contracts for full service that gave vast experience both in the technical and in the customer expectation sector.

You are welcome to visit us at our new showroom and office premises at:

Detailed information about the complete range and all colour variants is available on our website at any time. This is also where you will find our Professional range of highly attractive complete coffee solutions for offices and catering: www.jura.com

Perfect espresso at the touch of a button

- Pulse Extraction Process (P.E.P.®)
Pulse Extraction Process for professional quality, barista-style coffee
- Aroma^{G3} grinder now twice as fast
Preserves even more of the aroma
- Patented variable brewing chamber of 5 to 16 g
For individual coffee strength and preparation of two cups in just one brewing operation
- Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)
For hot coffee from the first cup

Perfect speciality coffee with milk at the touch of a button

- Automatic switchover from milk to milk foam
For incredibly easy preparation of trend specialities at the touch of a button
- Integrated milk system, rinsing and cleaning programme
Guaranteed TÜV-certified hygiene even when preparing speciality coffees with milk and milk foam
- Height-adjustable dual spout with separate coffee and milk pipes
Adjustable to suit your cups
- Patented fine foam technology
For perfect speciality coffees with milk in fine foam quality

Sustainability

- Patented Zero-Energy Switch
Disconnects the machine from the power supply and avoids using standby energy
- Energy Save Mode, E.S.M.®
Helps to save energy and protect the environment
- Programmable switch-on and switch-off time (for each day of the week)
So the automatic coffee machine is ready when you want it

Aluminium

SWISS  MADE

GIGA 5

Perfection, precision, professionalism

Benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- 2 professional ceramic disc grinders for precise and consistently even grinding for years to come
- Variable dual spout with 2 coffee spouts and 2 milk spouts for a perfect three-layered result – without interruptions
- Simultaneous preparation of coffee and milk for the perfect caffè latte (café au lait)

Z line

In 2004 JURA unveiled the Z line, the world's first ever one-touch automatic speciality coffee machine for the domestic market. The style icon in the premium range has now been fully revamped. Offering speciality coffees at the touch of a button, its perfect coffee quality, extreme ease of use, unique design and high-quality materials impress gourmets and design aficionados alike.

Z6

Satin Silver

SWISS  MADE

Benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- Automatic switchover from milk to milk foam makes it easier than ever to create trend specialities
- The Intelligent Water System (I.W.S.®) automatically detects the filter while the CLARIS Smart ensures perfect water quality
- Sophistication meets functionality with the elegant design and front access to water tank, bean container and all control elements

F line

Using modern technology to deliver the perfect result makes the best F line of all time a smart choice for those who prefer espresso, coffee and ristretto yet also like to treat themselves now and again to the perfect cappuccino or latte macchiato.

F9

Piano Black

SWISS  MADE

Benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- The perfect one-touch machine: 14 specialities at the touch of a button, from coffee classics to the hip flat white
- TFT display with Rotary Selection for self-explanatory, intuitive operation
- Ingenious height-adjustable dual spout with fine foam technology

E line

Clear, symmetrical forms, harmonious lines and a love of detail give the E line an elegant aesthetic that looks stunning in any kitchen. The completely redeveloped machine is equipped with innovative technologies to create truly wonderful results that will satisfy even the most discerning coffee lovers.

Piano Black

Benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- Aroma^{G3} grinder now twice as fast for fully preserved aroma
- Touch panel with three user-defined cup sizes and two aroma levels to choose from
- Elegant and compact, making it ideal for use in small spaces

PROFESSIONAL

W line

Coffee supports creativity, promotes communication and increases well-being. That's why JURA designed the W line as 'plug and enjoy' coffee machines that enable people to enjoy their favourite beverage with style in the workplace. Their greatest strengths are their flexibility, aesthetics and simplicity and the enlarged capacity of the bean container, water tank and coffee grounds container.

Flexible bean selection, the right blend of beans for every speciality

Complete pleasure

It is only possible to enhance the aroma of perfectly prepared coffee if the cups have been warmed up correctly, and an optimum crema can develop. Fresh, cool milk is ideal for a fine milk foam. In this way, perfect trend specialities can be created with a creamy foam topping. This is why JURA has developed accessories that offer the greatest possible comfort and convenience whilst guaranteeing optimum enjoyment. Add to your automatic speciality coffee machine module by module, entirely in accordance with your own personal preferences.

CLARIS removes the need for descaling

The right water is crucial to the taste of the coffee because coffee consists in fact of 98 % water. In addition to calcium, minerals and fluorides, the tap water in many areas contains traces of lead, copper, aluminium and chlorine. Positioned directly in the water tank, the CLARIS filter freshly filters the water every time coffee is prepared. It completely absorbs harmful substances while retaining important fluorides, which help the flavours to really develop. With the optimum water quality, every cup of coffee becomes a full-bodied taste experience. CLARIS eliminates the need to descale the machine.
