

Kicco

Kicco represents the latest in Italian design, meeting any requirement of top quality performances.

It is the professional coffee machine with automatic dosage, available with 1, 2 and 3 groups.

7 practical back-lighted selection buttons. Groups attached to thermostatically controlled boiler. Programming of pre-infusion for each drink selection.

No return system of liquids into the boiler and in the steam taps by means of vacuum valves.

Cold Water Mix for Group and Barista Steam Wand to heat and froth milk automatically at the set temperature are available as optional.

VERSIONS

COF Automatic Dosage | 1-2-3 high groups | -

LM Auto milk frother | Automatic Dosage | 1-2-3 high groups
